Course Contents

UNIT I	INTRODUCTION	9 Hrs
Business Research – Definition and Significance – the research process – Types of Research – Exploratory and causal Research – Theoretical and empirical Research – Cross –Sectional and time – series Research – Research questions / Problems – Research objectives – Research hypotheses – characteristics – Research in an evolutionary perspective – the role of theory in research. Activity In-Class Activity: Brainstorm and classify business problems into researchable and non-researchable categories. Case Study: “How HUL used consumer research for product development. “Assignment: Draft a research problem statement and frame two objectives and hypotheses. Quiz: Identify research types based on real-life scenarios.		
UNIT II	RESEARCH DESIGN AND MEASUREMENT	9 Hrs
Research design – Definition – types of research design – exploratory and causal research design – Descriptive and experimental design – different types of experimental design – Validity of findings – internal and external validity – Variables in Research – Measurement and scaling – Different scales – Construction of instrument – Validity and Reliability of instrument. Activity: Exercise: Design a		

descriptive and an experimental research framework for a chosen topic. Workshop: Develop a 10-item Likert scale questionnaire and test for reliability using Cronbach's Alpha (SPSS). Case: "Designing a market research study for new product launch." Quiz: Measurement and scaling techniques.

UNIT III	DATA COLLECTION	9 Hrs
	Types of data – Primary Vs Secondary data – Methods of primary data collection – Survey Vs Observation – Experiments – Construction of questionnaire and instrument – Types of Validity – Sampling plan – Sample size – determinants optimal sample size – sampling techniques – Sampling methods. Activity: Field Activity: Conduct a short pilot survey (minimum 15 respondents)-Assignment: Develop a questionnaire with appropriate scaling and sampling plan-Case: "Survey design for customer satisfaction analysis in retail banking."- Class Discussion: Advantages and limitations of online vs. offline data collection.	
UNIT IV	DATA PREPARATION AND ANALYSIS	9 Hrs
	Quantitative data analyses – Applications of Bivariate and Multivariate statistical-techniques, Factor analysis, Discriminant analysis, Cluster analysis, Multiple regression-and Correlation, Multidimensional scaling – Conjoint Analysis – Application of statistical-software for data analysis. Activity : Lab Session: Run correlation and regression using Excel/SPSS-Group Project: Perform factor analysis on survey data-Demonstration: Visualization and interpretation of cluster analysis- Quiz: Identify suitable statistical tools for different research objectives.	
UNIT V	REPORT DESIGN, WRITING AND ETHICS IN BUSINESS RESEARCH	9 Hrs
	Research report –Types – Contents of report – need for executive summary –chapterization – contents of chapter – report writing – the role of audience – readability – comprehension –tone – final proof – report format – title of the report – ethics in research – Ethics in research Subjectivity and Objectivity in research. Activity : Exercise: Write a 3-page mini research report based on field data-Case Discussion: "Ethical issues in data falsification and plagiarism-Peer Review: Evaluate reports for clarity and structure-Presentation: Individual research summary with findings and recommendations.	
Total Hours:		45 Hrs
